Portfolio www.eadesigner.com/portfolio/

eadesigner.com

Designer and Developer

Nov 2011 – Present
As a freelance professional, providing a positive user experience is my top priority in both print and web applications. I collaborate with multiple clients to discuss, conceptualize, and produce high-quality print as well as responsive websites that utilize the latest technologies.

dijipop.com

Contract Designer and Developer

Feb 2011 – Nov 2011
Enhanced the corporate brand with cleaner designs for efficient customer acquisition. Conceptualized and designed DiJiPOP's user interface, which established a cohesive new design and positive user experience.

eadesigner.com

Designer and Developer

Nov 2009 – Feb 2011
Responsible for producing and maintaining corporate print materials for small and large corporations.

Blue Cross Blue Shield of RI

Contract Web Designer and Developer

Aug 2009 – Nov 2009
Provided creative and technical support in meeting crucial deadlines, expedited the workflow with strong designs and developed standards compliant responsive webpages for their intranet.

deltadentalri.com

Interactive Media and Graphic Designer

Feb 2006 – Aug 2009
Responsible for all print materials such as brochures, annual reports, and advertisement. Redesigned and developed the User Interface on three company websites while working on small and large-scale independent projects.

The Robbins Company

Graphic Designer

July 2004 – Feb 2006
Grew from being a helpful addition to the team to the only designer with skills in print and web graphics. I maintained client needs while working on new campaign initiatives.
